Dear Ms. Dortch:

On November 7th, 2019, members of Kepler Communications Inc. (“Kepler”) held a teleconference with representatives of the International Bureau. Present on the call on behalf of Kepler were Nicholas Spina, Shane Laverty, and Vanessa Lewis. Present on behalf of the International Bureau were Jose Albuquerque, Stephen Duall, and Karl Kensinger.

Discussed on the call was Kepler’s view that the Commission ought to address pending orbital debris concerns raised in relation to systems of the OneWeb processing round¹ prior to the approval of new megaconstellations such as that recently proposed by Kuiper Systems LLC.

Best regards,

/s/ Nickolas G. Spina
